

Solution Architecture

Date	11 July 2026
Team ID	SWTID-2026-8118
Project Name	RK Health – AI Smart Patient Appointment & Medication Reminder System
Maximum Marks	5 Marks

Solution Architecture Diagram:

Provide a high-level visual representation of your solution's architecture. Use the structural layout below as a template to map out your Presentation Layer, Application Layer, and Data Layer. Fill in the specific technologies and components for your project directly into the boxes to create your architectural diagram.

Component Description Table

Component Name	Description / Role in Architecture	Technologies Used
Presentation Layer	Renders the Dashboard, Appointments, Medications, Reports and AI Summary pages; sends requests to the backend and displays responses	HTML, CSS, JavaScript
API / Backend Layer	Google Apps Script web app exposed via a deployment URL; receives requests, validates input, performs CRUD on Sheets, and returns data for the AI Summary module	Google Apps Script
Data / Storage Layer	Stores all appointment, medication and report records in structured Google Sheets tabs.	Google Sheets
Hosting	Serves the static frontend publicly.	GitHub Pages
