

AI Tools Used

Date	11 July 2026
Team ID	SWTID-2026-8118
Project Name	RK Health – AI Smart Patient Appointment & Medication Reminder System
Maximum Marks	2 Marks

AI Tools Used:

Documenting the specific artificial intelligence tools and platforms utilized during your project lifecycle helps evaluate efficiency and technological integration. Detail each AI tool, how it was applied, and the tangible benefit it provided to your workflow or final product.

S . N o	AI Tool / Platform Name	Specific Use Case / Application	Project Phase Applied	Impact / Benefit
1	ChatGPT (GPT-5.5)	Project planning, architecture guidance, debugging, Google Apps Script and JavaScript debugging, GitHub support, documentation guidance, README preparation	Planning, Development, Documentation	Accelerated planning, backend/frontend debugging and documentation writing
2	Claude Code	Repository-wide code analysis, code refactoring, bug fixing, documentation updates, project audit	Development, Testing, Documentation	Sped up whole-repo review, refactoring and final project audit
3	GitHub Copilot	Code completion, HTML generation, CSS suggestions, JavaScript suggestions	Development	Faster day-to-day coding of UI markup and logic
4	Ollama Cloud	Running Claude Code, AI-assisted development	Development	Provided the environment used to run Claude Code for development assistance
